© 1995 European Orthodontic Society

European Journal of Orthodontics

Volume 17 (1995) Subject entries

Angle Class II division 1 subjects
Dentofacial growth in orthodontically treated and untreated children with JCA. A comparison with ... 357
Angular changes
Growth changes in the cranial base and the face: a longitudinal cephalometric study of ... in adult Norwegians 525
Apical root resorption
Prevalence and severity of ... of maxillary anterior teeth in adult orthodontic patients 93
Asymmetrical growth
Reactions of the mandible to experimentally induced ... of the maxilla in the rat 15
Attractiveness
The influence of incisal malocclusion on the social ... of young adults in Finland 505

Bonded retainer system
An *in vitro* comparison between a ... and a directly bonded flexible spiral wire retainer 143
Bracket debonding
Quantitative and qualitative assessment of enamel surface following five composite removal methods after ... 121

Cephalometric analysis
... in a case of Herbst treatment in late puberty 165
Cephalometric analysis and research
Natural head positon and natural head orientation: basic considerations in ... 111
Cephalometric predictors
... for orthpaedic mandibular advancement in obstructive sleep apnoea 35
Ceramic brackets
Torsional bond strength and failure pattern of ... bonded to composite resin laminate veneers 533
Cervico-craniofacial skeletal morphology
Obstructive sleep apnoea: a cephalometic study of ... 45
CGRP, substance P
Expression of ... during and after orthodontic tooth movement in the rat 311
Chincap treatment
Long-term evaluation after ... 135
Class I malocclusion
Cluster analysis application to ... 240
Class II division 1 malocclusions
A cephalometric investigation of the effects of the Elastic bite-block in the treatment of ... 375
Class III face
A comparative study of the effects of customized facemask therapy or headgear to the lower arch on the developing ... 467
Cluster analysis application
... to Class I malocclusion 240
Composite removal methods
Quantitative and qualitative assessment of enamel surface following five ... after bracket debonding 121
Composite resin laminate veneers
Torsional bond strength and failure pattern of ceramic brackets bonded to ... 533
Condylar condition
... during early functional treatment of children with JCA 385
Cranial base
Growth changes in the ... and the face 525
Relationship between ... and maxillofacial morphology 403
Craniofacial morphology
Nasorespiratory characteristics and ... 491
CT-scanning
... of temporomandibular joints and cephalometric analysis in a case of Herbst treatment in late puberty 165

Dental arch dimensions
The effect of a lip bumper on lower... 129
Dentitions
Morphological characteristics of ... developing excessive root resorption during orthodontic treatment 25
Dentofacial changes
... in Norwegian and Iowan populations between 6 and 18 years of age 241
Dentofacial growth
... in orthodontically treated and untreated children with JCA 357
Directly bonded flexible spiral wire retainer
An *in vitro* comparison between a bonded retainer system and a ... 143
Discriminant analysis
... in treatment evaluation of ectopic eruption of the maxillary first permanent molars 281
Distortion
The prediction of ... in formed orthodontic appliances 153

Ectopic eruption
Discriminant analysis in treatment evaluation of ... of the maxillary first permanent molars 281
Long-term treatment effects in children with ... of the maxillary first permanent molars 293
Elastic bite-block
A cephalometric investigation of the effects of the ... in the treatment of Class II division 1 malocclusions 375
Electromagnetic articulography
... as a method for detecting the influence of spikes on tongue movement 411
Enamel surface
Quantitative and qualitative assessment of ... following five composite removal methods after bracket debonding 121

Face
Growth changes in the cranial base and the ... 525

Facemask therapy
A comparative study of the effects of customized ... to the lower arch on the developing Class III face 467
Facial aesthetics
A photographic scale to measure ... 101
Facial deformity
Four measurements for assessing ... 483
Facial growth
Tensor analysis of ... in males 215
Failure pattern
... of ceramic brackets bonded to composite resin laminate veneers 533
Financing
Orthodontic screening and third party ... 79
Flexible spiral wire retainer
An *in vitro* comparison between a bonded retainer system and a directly bonded ... 143
Formed orthodontic appliances
The prediction of distortion in ... 153
Frontal bone
Intramatrix rotation — the ... 3
Fronto-sternal traction
... 9
Functional masticatory evaluation
... in hemifacial microsomia 273
Functional treatment
Condylar condition and mandibular growth during early ... of children with JCA 385

Gender
The influence of ... on the uptake of orthodontic treatment 199
Gingival tissue
Human dental pulp and ... after static magnetic field exposure 85
Growth changes
... in the cranial base and the face 525

Head position and orientation
Natural ...: basic considerations in cephalometric analysis and research 111
Headgear
A comparative study of the effects of customized ... to the lower arch on the developing Class III face 467
Hemifacial microsomia
Functional masticatory evaluation in ...273
The PUMA: a new technique for ... 263
Herbst treatment
Cephalometric analysis of temporomandibular joints in a case of ... in late puberty 165
Human dental pulp
... and gingival tissue after static magnetic field exposure 85

Incisal malocclusion
The influence of ... on the social attractiveness of young adults in Finland 505
Intramatrix rotation
... — the frontal bone 3
Iowan populations
Dentofacial changes in ... between 6 and 18 years of age 241

Juvenile chronic arthritis
Condylar condition and mandibular growth during early functional treatment of children with ... 385
Dentofacial growth in orthodontically treated and untreated children with ... 357

Linear changes
Growth changes in the cranial base and the face a longitudinal cephalometric study of ... in adult Norwegians 525
Lip bumper
The effect of a ... on lower dental arch dimensions and tooth positions 129
Lip coverage
An investigation of the association between overjet size, ..., and traumatic injury to maxillary incisors 513
Lower arch
A comparative study of the effects of customized facemask therapy or headgear to the ... on the developing Class III face 467
Lower arch crowding
A preliminary report on ... in the mature adult 257
Lower dental arch dimensions
The effect of a lip bumper on ... 129

Mandible
Reactions of the ... to experimentally induced asymmetrical growth of the maxilla in the rat 15
Mandibular advancement
Cephalometric predictors for orthopaedic ... in obstructive sleep apnoea 35
Mandibular condyles
Radiographic characteristics in ... of orthodontic patients before treatment 69
Mandibular function
... before and after orthodontic treatment 205
Mandibular growth
... during early functional treatment of children with JCA 385
Maxilla
Reactions of the mandible to experimentally induced asymmetrical growth of the ... in the rat 15
Maxillary anterior teeth
Prevalence and severity of apical root resorption of ... in adult orthodontic patients 93
Maxillary first permanent molars
Discriminant analysis in treatment evaluation of ectopic eruption of the ... 281
Long-term treatment effects in children with ectopic eruption of the ... 293
Maxillary incisors
An investigation of the association between overjet size, lip coverage, and traumatic injury to ... 513
Maxillofacial morphology
Relationship between cranial base and ... 403
Morphological characteristics
... of dentitions developing excessive root resorption during orthodontic treatment 25

Nasorespiratory characteristics
... and craniofacial morphology 491
Neuropeptides
Expression of ... during and after orthodontic tooth movement in the rat 311
Norwegian populations
Dentofacial changes in ... between 6 and 18 years of age 241

Obstructive sleep apnoea
... 45
... 57
Cephalometric predictors for orthopaedic mandibular advancement in ... 35
Open bite cases
Outcome prediction in ... 519
Orofacial dysfunctions
Associations among different ... in 9–11-year-olds 497
Orthodontic appliances
The prediction of distortion in formed ... 153
Orthodontic patients
Radiographic characteristics in mandibular condyles of ... before treatment 69
Orthodontic root resorption
The repair of ... 189
Orthodontic root resorption-repair sequence
Transition and determinants of ... 177
Orthodontic screening
... and third party financing 79
Orthodontic tooth movement
Expression of neuropeptides during and after ... in the rat 311
Orthodontic treatment
Mandibular function before and after ... 205
Morphological characteristics of dentitions developing excessive root resorption during ... 25
Properties of superelastic wires and their relevance to ... 395
The influence of social class, gender, and peers on the uptake of ... 199
Orthognathic surgery
Fronto-sternal traction: an adjunct to ... 9
Outcome prediction
... in open bite cases 519
Overjet size
An investigation of the association between ..., lip coverage, and traumatic injury to maxillary incisors 513

Peers
The influence of ... on the uptake of orthodontic treatment 199
Permanent molars
Discriminant analysis in treatment evaluation of ectopic eruption of the maxillary first ... 281
Long-term treatment effects in children with ectopic eruption of the maxillary first... 293
Photographic scale
A ... to measure facial aesthetics 101
Propellant unilateral magnetic appliance
The ... 263
Puberty
Cephalometric analysis of temporomandibular joints in a case of Herbst treatment in late ... 165

Radiographic analysis
... of temporomandibular joints and cephalometric analysis in a case of Herbst treatment in late puberty 165
Radiographic characteristics
... in mandibular condyles of orthodontic patients before treatment 69
Retainer system
An *in vitro* comparison between a bonded ... and a directly bonded flexible spiral wire retainer 143
Root resorption
Morphological characteristics of dentitions developing excessive ... during orthodontic treatment 25
The repair of orthodontic ... 189
Root resorption repair-sequence
Transition and determinants of orthodontic ... 177

Social attractiveness
The influence of incisal malocclusion on the ... of young adults in Finland 505
Social class
The influence of ... on the uptake of orthodontic treatment 199
Spikes
Electromagnetic articulography as a method for detecting the influence of ... on tongue movement 411
Spiral wire retainer
An *in vitro* comparison between a bonded retainer system and a directly bonded flexible ... 143
Static magnetic field exposure
Human dental pulp and gingival tissue after ... 85
Superelastic wires
Properties of ... and their relevance to orthodontic treatment 395

Temporomandibular joint dysfunction
Prevalence of ... in Chinese children and adolescents 305
Temporomandibular joints
CT-scanning and radiographic analysis of ... and cephalometric analysis in a case of Herbst treatment in late puberty 165
Tensor analysis
... of facial growth in males 215
Third party financing
Orthodontic screening and ... 79
Tongue movement
Electromagnetic articulography as a method for detecting the influence of spikes on ... 411
Tooth movement
Expression of neuropeptides during and after orthodontic ... in the rat 311
Tooth positions
The effect of a lip bumper on ... 129
Torsional bond strength
... and failure pattern of ceramic brackets bonded to composite resin laminate veneers 533
Traumatic injury
An investigation of the association between overjet size, lip coverage, and ... to maxillary incisors 513
Treatment evaluation
Discriminant analysis in ... of ectopic eruption of the maxillary first permanent molars ... 281

Uvulo-glossopharyngeal morphology
Obstructive sleep apnoea: a cephalometric study of ... 57

Author entries

Årtun, J. see Mirabella, A. D.
Ashworth, D. R. see Chen, M. S-M.

Bakke, M. see Paulsen, H. U.
Battagel, J. M.
Tensor analysis of facial growth in males 215
Battagel, J. M. and Orton, H. S.
A comparative study of the effects of customized facemask therapy or headgear to the lower arch on the developing Class III face 467
Bishara, S. see El-Batouti, A.

European Journal of Orthodontics

Volume 17 (1995) Subject entries

Abstract section—page numbers are given first followed by the abstract number in parentheses

Activator treatment
Changes in chin morphology after ... 429 (11)
Adhesion properties
... of hard anodised aluminium bracket bases in comparison with conventional mesh bases 431 (14)
Aesthetic treatment
Conservative ... opportunities in anterior maxillary teeth 448(60)
Alloys
Bonding to different metal ... 442 (45)
Alveolar bone
Biological reaction of ... to orthodontic tooth movement 345 (40)
Amalgam
Bonding to ... 442 (45)
Anchorage system
Osseointegrated implants as an orthodontic and orthopaedic ... 333 (10)
Angiogenic changes
... in the human pulp following orthodontic tooth movement 333 (11)
Angle Class I and Class II
Cephalometric identification of ... in Greek patients with B-homozygous thalassaemia 444(48)
Anodised aluminium bracket bases
Adhesion properties of hard ... in comparison with conventional mesh bases 431 (14)
Anterior crowding
Long-term effects of Herbst appliance treatment on ... 444 (50)
Anterior maxillary teeth
Conservative aesthetic treatment opportunities in ... 448(60)
Anterior temporal muscles
Electromyographic responses of ... after application of EBB and Teuscher appliance 427 (4)
Anterior tooth surface loss
The clinical management of localised ... 436 (27)
Archwires
Three-dimensional analysis of orthodontic ... 447 (58)
Arthritis
Dentofacial growth in orthodontically-treated children with juvenile chronic ... 341 (29)
Autopsy study
... of human TMJ condyles in 18–24-year-olds 450 (65)
Autotransplantation
...—a treatment approach to hypodontia of second lower premolars 442 (44)
Autotransplanted premolars
A longitudinal radiographic study of ... 348 (48)

Balter's bionator
Orthopaedic changes in the early treatment of Class II patients with the ... 436 (28)
Bass appliance
Root resorption of upper incisors during treatment with the ... 447 (57)
B-homozygous thalassaemia
Cephalometric identification of Angle Class I and Class II in Greek patients with ... 444(48)
Binder's syndrome
An alternative determination of prognathism for use in ... 335 (15)
Biological mechanisms
... in orthodontic tooth movement 352 (60)
... of orthodontic tooth movement 332 (7)
Biomechanical effectiveness
Relationship between cephalometric diagnosis and ... of orthodontic appliances 350 (54)
Bionator therapy
Early functional ... in class II malocclusions 440 (38)
Bite opening
... in patients with deep overbites and craniomandibular disorders 336 (17)
Biteplates
... in orthodontic treatment of deep bite 454 (79)
Blood flow
... incident to two experimental models of tooth movement 446 (54)
Blood flow in teeth
Reproducibility of short-term measurements of ... 457 (87)
Blood vessels
Effect of experimental tooth movement on ... 460 (94)
Bond failure
Bond strength and clinical ... of fibreglass reinforced aesthetic brackets 434 (22)
Bond strength
... and clinical bond failure of fibreglass reinforced aesthetic brackets 434 (22)
Tensile ... of ceramic and metal brackets to porcelain 448 (61)
Bonding
... on moisture-contaminated enamel 338 (22)
... to porcelain, composite amalgam, and different metal alloys 442 (45)
A clinical evaluation of glass ionomer cement for ... 449 (63)
Molecular interaction of glass-ionomer cements in bracket ... 437 (31)
White spot reduction when using glass ionomer cement for ... 344 (38)
Bonding materials
Fluoride release of orthodontic ... and its effect on enamel demineralization 428 (7)
Bone cell response
A molecular mechanism for ... stimulated by orthodontic forces 432 (18)
Bone mass
... in growing rat mandibles 432 (17)

Bone metabolism
Osteopontin and ... 439 (35)
Bone morphology
The inter-relationship between EMG patterns and ... 337 (19)
Bone remodelling
Investigations of ... 461 (99)
Bracket bonding
Molecular interaction of glass-ionomer cements in ... 437 (31)
Bruxism
Aetiology and clinical symptoms of ... in children and adolescents 451 (68)
Buccal shields
Effects of ... on the maxillary dentoalveolar structures and the mid-palatal suture 340 (26)

Calvarial bone defects
Regeneration of ... in rats using human recombinant TGF-β1 431 (15)
Canal therapy
Investigation of the effects of ... on root resorption in premolar intrusion 435 (26)
Caries
Incidence of dental ... in children with an oral cleft 430 (12)
Castration effect
... on craniofacial growth in Wistar rats 460 (95)
Cell-specific responses
... of periodontal ligament fibroblasts to mechanical stretching and the molecular mechanisms involved 330 (3)
Centrifugal forces
Effects of ... on human primary cultured cells 453 (75)
Cephalometric analysis
A method for integrating ... and tomographic analysis of the TMJ 443 (47)
Cephalometric characteristics
... of Class II division 2 malocclusions 462 (100)
Cephalometric diagnosis
Relationship between ... and biomechanical effectiveness of orthodontic appliances 350 (54)
Cephalometric evaluation
... of patients with juvenile rheumatoid arthritis 455 (82)
A prospective ... of the effects of differing functional appliances 441 (41)
Cephalometric floating norms
... for the deciduous dentition 438 (32)
Cephalometric identification
... of Angle Class I and Class II in Greek patients with B-homozygous thalassaemia 444 (48)
Cephalometric parameters
Heritability of 39 orthodontic ... in MZ- and DZ-twins, and in paired singletons 344 (37)
Cephalometric shapes
Harmonic analysis of ... in orthodontic patients 436 (29)
Ceramic brackets
Tensile bond strength of ... to porcelain 448 (61)
Chin morphology
Changes in ... after activator treatment 429 (11)
Class I and II subjects
Comparison of tongue functions during swallowing between ... 450 (67)
Class II correction
The mechanism of ... in 'late' Herbst treatment 341 (30)
Class II division 1 malocclusions
Extra-oral and Edgewise appliance treatment of ... 456 (84)
Class II division 2 malocclusions
Cephalometric characteristics of ... 462 (100)
Herbst appliance treatment of ... 449 (64)
Class II malocclusion
Correction of ... with a Jasper Jumper in growing patients 445 (51)
Early functional bionator therapy in ... 440 (38)
The influence of early treatment in ... on dental and skeletal pararameters 334 (13)
The relationship between habits and ... 451 (69)
Class II patients
Orthopaedic changes in the early treatment of ... with the Balter's bionator 436 (28)
Class II skeletal open bite
Orthopaedic and functional treatment in ... 338 (23)
Class III
Maxillary development revisited—relevance to the orthodontic treatment of ... 332 (8)
Class III adolescents
Cephalometric comparison of dentofacial parameters between German and Turkish ... 426 (2)
Class III children
Tensor analysis of mandibular changes in treated ... 336 (18)
Class III malocclusions
Early orthodontics and orthopaedics in moderate and severe ... 339 (25)
Enhanced maxillary growth following early treatment of ... 330 (2)
Prediction of success or failure of early treatment of ... 427 (5)
Skeletal and dentoalveolar changes after early and late treatment of ... 339 (24)
Class III patients
Treatment effects produced by facial mask therapy in young ... 345 (39)
Class III treatment
Stability in dentoskeletal ... 336 (16)
Cleft infants
Communication patterns of parents of ... 334 (12)
Cleft lip and palate
Combined surgical orthodontic treatment of the premaxilla in bilateral ... patients 342 (31)
Effects of reverse headgear on sagittal correction in unilateral ... boys 439 (35)

Paulsen, H. U. and Andreasen, J. O.
Tooth eruption subsequent to transplantation. A longitudinal radiographic study of autotransplanted premolars 348 (48)
Paulsen, H. U., Mosekilde, Li. and Hougen, H. P.
Autopsy study of human TMJ condyles in 18–24-year-olds 450 (65)
Pelsmaekers, B., Savoye, I., Lauweryns, I., Carels, C. and Vlietinck, R.
Genetic contribution to dental maturation: a twin study 450 (66)
Pelsmaekers, B. see Savoye, I.
Pender, N. see Baldwin, P. D.; Smith, F. E.
Peng, C-L. and Jost-Brinkmann, P-G.
Comparison of tongue functions during swallowing between Class I and II subjects 450 (67)
Perillo, L. see Ferro, A.
Permann, I. see Permann, R.
Permann, R., Permann, I, Droschl, H. and Pieringer, M.
Occlusal and condylar changes in patients 10 years after the original fitting of a gnathological positioner 348 (49)
Persson, M. see Marcusson, A.; Norevall, L-I.
Piekarczyk, B., Zadurska, M., Biedrzycka, E. and Pietrzak-Bilińska, B.
Aetiology and clinical symptoms of bruxism in children and adolescents 451 (68)
Pieringer, M. see Permann, R.
Pietrzak-Bilińska, B. see Piekarczyk, B.
Pitaru, S. see Vardimon, A. D.
Podariu, A., Grivu, Ov. and Abdalla, N.
The relationship between habits and Class II malocclusions 451 (69)
Poggio, C. E. see Ferrario, V. F.
Pompa, J. A.
The shovel-shaped incisors and the people of the Americas 451 (70)
Pompa, J. A. see Teramoto, A.
Pospieszyknska, M. D.
A cephalometric study of females with Turner's syndrome 452 (71)
Prahl-Andersen, B. see Bokhaut, B.; Spijkers, J. M. C.; van der Schoot, E. A. M.
Preston, C. B. see Rossouw, P. E.
Proffit, W. R.
New observations on erupting human premolars 349 (50)

Rebellato, J. see Lindauer, S. J.
Ring, P., Biedermann, F. and Mandeya, M.
Occurrence and frequency of radiological anomalies in cleft lip and palate patients 452 (72)
Rossouw, P. E., Preston, C. B. and Lombard, C.
Sexual dimorphism and its relationship with post-orthodontic lower incisor irregularity 452 (73)
Rudzki-Janson, I.
Aspects in pre- and post-operative orthodontic treatment of deep-bite deformity 349 (51)
Rudzki-Janson, I. see Schweizer, Ch.
Ruf, S. and Pancherz, H.
Is orthopantomography reliable for TMJ diagnosis? 453 (74)
Ruf, S. see Cecere, F.
Russell, B. G. see Kjær, I.
Rygh, P. see Amundsen, O. C.

Sagne, S. see Thilander, B.
Saito, S., Nakamura, Y., Yamasaki, K. and Shibasaki, Y.
Effects of centrifugal forces on human primary cultured cells 453 (75)
Saito, S. see Yamasaki, K.
